PERSONAL PROFILE

I am a positive and dedicated individual with strong programming skills and a keen interest in learning new technologies, particularly in the field of AI. I believe in lifelong learning and continuously strive to improve myself. Collaboration is important to me—I enjoy exchanging ideas and supporting others in both professional and social settings. Currently, I am pursuing a master's degree at an international university, focusing on AI. I am particularly intrigued by exploring how AI can be integrated with web development to create innovative solutions.
